#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

Claim 4 is objected to because it depends from claim 1, which has been canceled.

Appropriate correction is required. It has been treated as depending from claim 3.

Claim 8 is objected to because of the following informalities: "abut" (line 4) should be --about--. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 9-12 are generally narrative and indefinite, failing to conform with current U.S. practice. These claims have not been further treated on the merits.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3-8 and 13-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Klco (U.S. Patent 4,836,856).

Klco discloses a composite concrete pavement having a subbase of limestone. Because it is standard engineering practice to choose an aggregate size based upon meeting design load criteria, it would have been obvious to one of ordinary skill in the art at the time the invention was made to have used the aggregate size as claimed. Similarly, the specified compressive strength and modulus of rupture would have been obvious to one of ordinary skill in the art at the time the invention was made to have used in order to obtain a pavement suitable for design loads.

Regarding claim 4, this is a process limitation that does not further limit the product claim.

Klco is deemed to meet the recitation of "enriched limestone waste."
